

The Youth program has down sized this school year from 5 classrooms to 3. We have the Uniteen program and then two classrooms; 4 year old to 2nd grade and the 3rd 4th and 5th grade classroom. We continue to have two teachers per classroom who alternate instruction on Sundays. We will expand back up to 5 classrooms when our numbers consistently return to around 20 each Sunday for the 6th grade and under group.

We have added Will Hale to our children's ministry this year. Will leads us in song, greeting and meditation each morning. His gift of song and fun is deeply appreciated and the children are responding very well to it.

We are sending out biweekly emails to parents about the upcoming lessons. We have plans to post monthly on the Unity website later this year.

Two of our teachers attended the teacher training this fall and we will again be thanking our teachers with a mini good for you day in January.

The Uniteen group has been invited to attend the biweekly midweek teen ministry gatherings in Golden Valley. We are extending this invite to our youth along with transportation and supervision provided by the Uniteen teachers and the youth director.

We are discussing a new name for our program and will have that established by the end of this school year.

Brenda McNallan
Youth Services Director of UNSC
